The Association.

Fleet Service Negotiations Update

June 17, 2016: Download and Post

Sisters and Brothers,

The Association Fleet Negotiating Committee met with the company this week in Dallas. Multiple proposals were passed that addressed the outstanding issues regarding Hours of Work and Work Schedules. We made significant progress on both of these articles.

Your committee also worked on proposals for Overtime and Classifications. The company indicated that they are preparing to pass their Overtime proposal during our next session.

Our next negotiating session is scheduled for the week of June 20th in Washington DC.

Fraternally,
