

The Machinists Non-Partisan Political League

The Machinists Non-Partisan Political League is the political arm of the International Association of Machinists and Aerospace Workers. It was created in 1947 to allow IAM members to gather individual contributions, coordinate political activity, and elect candidates who support IAM members and their families.

Candidates we support know that the MNPL stands for economic justice, security in the workplace and equality for every member. They do not take us for granted.

The MNPL scrutinizes each candidate thoroughly. We ask tough questions such as their positions on trade, labor law reform, economic conversion, transportation policies, and enhancement of the U.S. manufacturing base.
