ASAP Bulletin

ASAP Reporting Website Update

The ASAP reporting website WBAT(Web Based Application Tool) is releasing a new version. This updated version is set to be released June 10, 2018 and the server will be down the night prior for about 12 hours. Once the update is complete you will be able to access the reporting sites from all links currently available. All current features will still be available with the updated website but with a new look.

If you have any questions and/or concerns please feel free to contact the ASAP hotline (817) 963-2307 and/or your union representative.

A quick reference sheet will also be available under documents on the ASAP JetNet webpage *(Link shortcut available under Communication Links on AMT homepage)*:
