

Association, AA Executive Session Negotiations Update – July 28th, 2017

07/28/2017

Brothers and Sisters,

The Executive Negotiating Committee informed American Airlines they would not meet face to face with the company this week while in Washington D.C. Your negotiating committees continued to evaluate the proposal presented last week and worked on crafting language to respond to this woefully inadequate company document that is far from industry leading.

It is becoming abundantly clear that the Members' feeling of disgust towards American Airlines is growing. Your committees greatly appreciate your support this and every week. Your continued support is needed to bring you the industry leading contract you deserve!

Negotiations are scheduled to resume on the following weeks:

August 14th and August 28th.

Fraternally,
