

Association Bulletin – 01/29/2020

The Association.

January 29, 2020

Sisters and Brothers,

Negotiations between the Association and American Airlines resumed today in Washington, DC. with some progress made. The remaining outstanding issues are few, but are some of the most important elements of a collective bargaining agreement, including wages and job scope language.

The parties will continue negotiations tomorrow, and the membership will be updated as developments occur. Your solidarity has brought us close to an agreement, and your committee thanks you as we try to conclude these negotiations.
