

May 24th, 2022. National Aviation Maintenance Technician Day

May 24, 2022

IAMAW is proud to represent our many skilled aviation maintenance technicians – and today, especially, we want to recognize those members of Victory Lodge 1725 who keep our air travel safe around the clock.

You'll find our AMT's working in the American Airlines and PSA hangars, on the flight line, and other support shops on and off the property.

Thank you, brothers and sisters for keeping our aircraft safe and secure. Enjoy your day!
