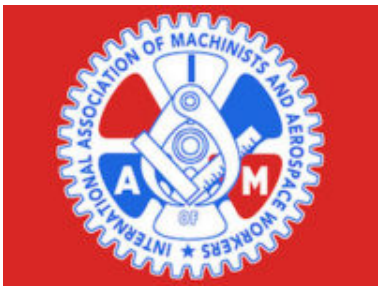
PSA Shop Steward Class



“I wanted to share with you a photo of the First Union Steward class that myself and seven others attended this week (Wednesday and Thursday) at our Local “Victory 1725 Lodge” in CLT. This was a great class to be a part of. We all learned about our IAM union and how we can be better stewards for our members, be better communicators, and help to build and strengthen a spirit of cooperation between the Union and Management.

This course helped us define some objectives, and some of our different rolls and responsibilities as a steward. I wanted to personally thank the PSA management team and our Local 1725 Lodge along with a special thanks to Jim Samual for working together to put this class together for our members.”

David Follmer

Maintenance Lead – Dayton

PSA Airlines
